

Tuesday, July 18, 2000

The Fraser Panel met Tuesday July 18 to review the status of the Fraser sockeye migration. The Early Stuart Run-size is now expected to reach 370,000 sockeye. The abundance and stock proportions of Summer-run sockeye are not approaching expected levels in the marine areas and consequently, all Panel Area waters remain closed to fishing. The Panel will meet again Friday July 21 to review the progress of the Fraser sockeye migration.
