

Data Request Form

The Pacific Salmon Commission (PSC) records, including certain data, are inviolable and immune from search as per U.S. Executive Order 12567 and Canadian Order in Council SOR/86-501. Much of the information in PSC records is provided by other agencies and as such, the PSC reserves the right to consult with, seek approval from, or refer data requests to source agencies. Nonetheless, the Commission makes significant amounts of information available to the public through its website and responses to specific requests in order to advance scientific research and the general understanding of Pacific salmon.

This form facilitates requests for scientific data and samples from the PSC Chinook Technical Committee (CTC). Each request shall be reviewed using the following criteria:

- Submission of a completed data request form with sufficient detail and clarity to permit review;
- Availability of requested data;
- Availability of time/human resources needed to fulfill the data request; and
- Priority of the request among other CTC duties/priorities

The CTC reserves the right to decline data requests based on its own evaluation. The CTC shall not be held liable for any improper or incorrect use of the data provided as a result of this data request and assumes no responsibility for use of the information once provided. Data provided as a result of this request will be as current as possible and not passed on to other users without consent of the CTC. Data are regularly updated and revised, and it is the responsibility of the requester to ensure data being used and that interpretations are consistent with the time series of data being used. Results and/or reports produced using the provided information will be made available to the CTC upon request.

Provision of data or samples by the PSC is made without prejudice to future exercise of the Commission's immunities under U.S. Executive Order 12567 and Canadian Order in Council SOR/86-501.

Specific requests must be submitted through the use of this form, and submitted via one of the following options:

- general email at info@psc.org
- email to the Salmon Coordinator, liu@psc.org
