

PSC Seminar Series

Supporting Salmon Recovery Through Strategic Initiatives

**March 29, 2023; 2:00-3:30 p.m. Pacific time
Online via Zoom**

The Southern Panel and Coho Technical Committee are pleased to announce a seminar for the PSC family, “Supporting Salmon Recovery Through Strategic Initiatives” featuring Mr. Bill Templin (ADFG) and Mr. Shane Petersen (BCSRIF) on March 29th from 2:00 - 3:30pm (PDT).

This will be the 11th in a series of virtual ZOOM seminars intended to provide information on environmental change, its effects on salmon across their life cycle, and salmon management from both western and indigenous perspectives. This series will feature noted speakers from the United States and Canada, followed by a facilitated Q & A session.

Registration for live seminars is available only for PSC family members. Each seminar is recorded and made available to the public on the [PSC website](#) and [YouTube channel](#) shortly after the live event.

Please register in advance (free of charge) at:

https://psc-org.zoom.us/webinar/register/WN_auWDCIJzQ2CrtiJ_kLyaCQ

Future seminars will be scheduled throughout 2023. Potential topics include:

- Climate vulnerability assessments.
- Predation on salmon.
- Forecasting for environmental variation
- New management strategies for uncertain times
- Changes in salmon life history and productivity
- Hatchery and wild salmon interactions: what is and is not known?
- Adaptive management in a changing climate.
- Lessons learned from salmon reintroduction/dam removals.

Upcoming Seminar Dates:

Thursday, April 20th, 2pm-3:30pm

Wednesday, May 31st, 2pm-3:30pm
