

PSC Seminar Series

Updates on Current Conditions Around the NE Pacific

**September 20, 2023; 2:00-3:30 p.m. Pacific time
Online via Zoom**

The Southern Panel and Coho Technical Committee are pleased to announce a seminar for the PSC family, “**Updates on Current Conditions Around the NE Pacific**” featuring Andrew Leising (NOAA/SWFSC), Bridget Ferriss (AFSC), and Jennifer Boldt (DFO) on September 20th from 2:00 - 3:30pm (PDT).

This will be the 16th in a series of virtual ZOOM seminars intended to provide information on environmental change, its effects on salmon across their life cycle, and salmon management from both western and indigenous perspectives. This series will feature noted speakers from the United States and Canada, followed by a facilitated Q & A session.

Registration for live seminars is available only for PSC family members. Each seminar is recorded and made available to the public on the [PSC website](#) and [YouTube channel](#) shortly after the live event.

Please register in advance (free of charge) at:

https://psc-org.zoom.us/webinar/register/WN_LnsfkOosQM6c8I6EF0RGHw#/registration

Future seminars will be scheduled throughout 2023. Potential topics include:

- Climate vulnerability assessments.
- Predation on salmon.
- Forecasting for environmental variation
- New management strategies for uncertain times
- Changes in salmon life history and productivity
- Hatchery and wild salmon interactions: what is and is not known?
- Adaptive management in a changing climate.
- Lessons learned from salmon reintroduction/dam removals.

Upcoming Seminar Dates:

October 25 – Fisheries management structures to deal with climate change.

November 29 – Hatchery-wild interactions
